
CONCEPTS COVERED: Steps and skips

STUDENT LEVEL: Newbie

steppity skippity

steppityskippity

HOW TO PLAY

- Make a path with the alphabet cards on the floor. The players will step from card to card so space them appropriately for the age of the players.
- Players start at the first A and take turns to draw a card and either step or skip forward on the path. (Standing beside each card rather than on top of it to preserve the cards!)
- The winner is the first to reach the A at the end of the path.

ASSEMBLY

To assemble this game:

- Print out the step & skip cards (pages 3-4) double-sided. Trim along the dotted lines and laminate if desired.
- Print out the alphabet cards (pages 5-6) single-sided. Trim along the dotted lines and laminate if desired.

LEARNING OBJECTIVE

Steppity Skippity is a great game for young beginners to learn the difference between steps and skips in the music alphabet.
