# NOTE VALUE MEMORY

## HOW TO PLAY

### Memory (1 player):

- Choose the green, red or purple card set.
- Lay out all the cards face down.
- Turn over one pair at a time. If they match, set them aside, if they don't turn them back over.
- Continue until all the cards are matched.
- Time your student to see how fast they can match all the pairs together.
- Repeat (immediately or at next lesson) and try to beat the time.

### Memory (2 players):

- Choose the green, red or purple card set.
- Lay out all the cards face down.
- Take turns to turn over one pair at a time. If they match, set them aside, if they don't turn them back over.
- Continue until all the cards are matched.
- The winner is the one with the most pairs at the end.

### Snap! (2 players):

- Choose the green, red or purple card set.
- Shuffle the cards and divide into two equal piles, one for each player.
- Players take turns to turn over a card into a central pile.
- If the card matches the previous card, either player can shout "SNAP!" and put their hand on the card pile.
- The first player to say "SNAP!" wins all of the turned over cards, and adds them to her/his pile.
- The winner is the first to win all the other cards, or the one with the most cards when time is up.

## ASSEMBLY

To assemble this game:

- Print out the game cards (pages 3-6) double-sided.
- Trim along the dotted lines and laminate if desired.

## LEARNING OBJECTIVE

Memory games are a simple but effective way to work on understanding with young students. This game covers the first note values that most students need to learn.
