

CONCEPTS COVERED: Landmark notes

STUDENT LEVEL: Beginner

HOW TO PLAY

- Divide the deck between the two players.
- Players take turns to flip a card from their deck into a central pile between them.
- If either player spots a landmark note they should say its name and place their hand on top of the central pile.
- If they are correct, they should add the cards in the central pile to their own deck.
- If both players say the name together, the player with their hand on the deck first wins the pile.
- The winner is the one with all the cards, or the most cards when the time is up.

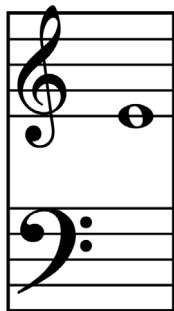

ASSEMBLY

To assemble this game:

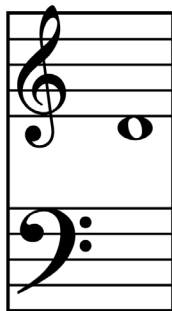

- Print out the game cards (pages 3-8).
- Print the optional decorative backing (page 9) if desired, cut apart and laminate if desired.

LEARNING OBJECTIVES

Landmark Heist provides beginner students with plenty of practice scanning for and identifying landmark notes from a sea of possible alternatives. Students do not need to know all the landmark notes to play this game – even just one or two will work well.
