

CONCEPTS COVERED: Key signatures

STUDENT LEVEL: Early intermediate/grade 2

# Key Collector

# Key Collector

## HOW TO PLAY

- Sit in a circle with a game board (treble or bass clef) in front of each player.
- Put all the small sharp and flat tokens in a pile in the centre.
- Players take turns to close their eyes and draw a sharp or flat at random from the central pile and place this on their staff. This decides what they will be collecting.
- Players then take turns to draw a question card.
  - If they answer it correctly they may add a sharp/flat to their staff card.
  - If they are incorrect they do not gain a sharp/flat.
  - If a player gains a sharp or flat but places it in the wrong place on their staff card, they lose all their sharps/flats and have to start collecting again on the next round.
- The winner is the first to collect 7 sharps/flats.

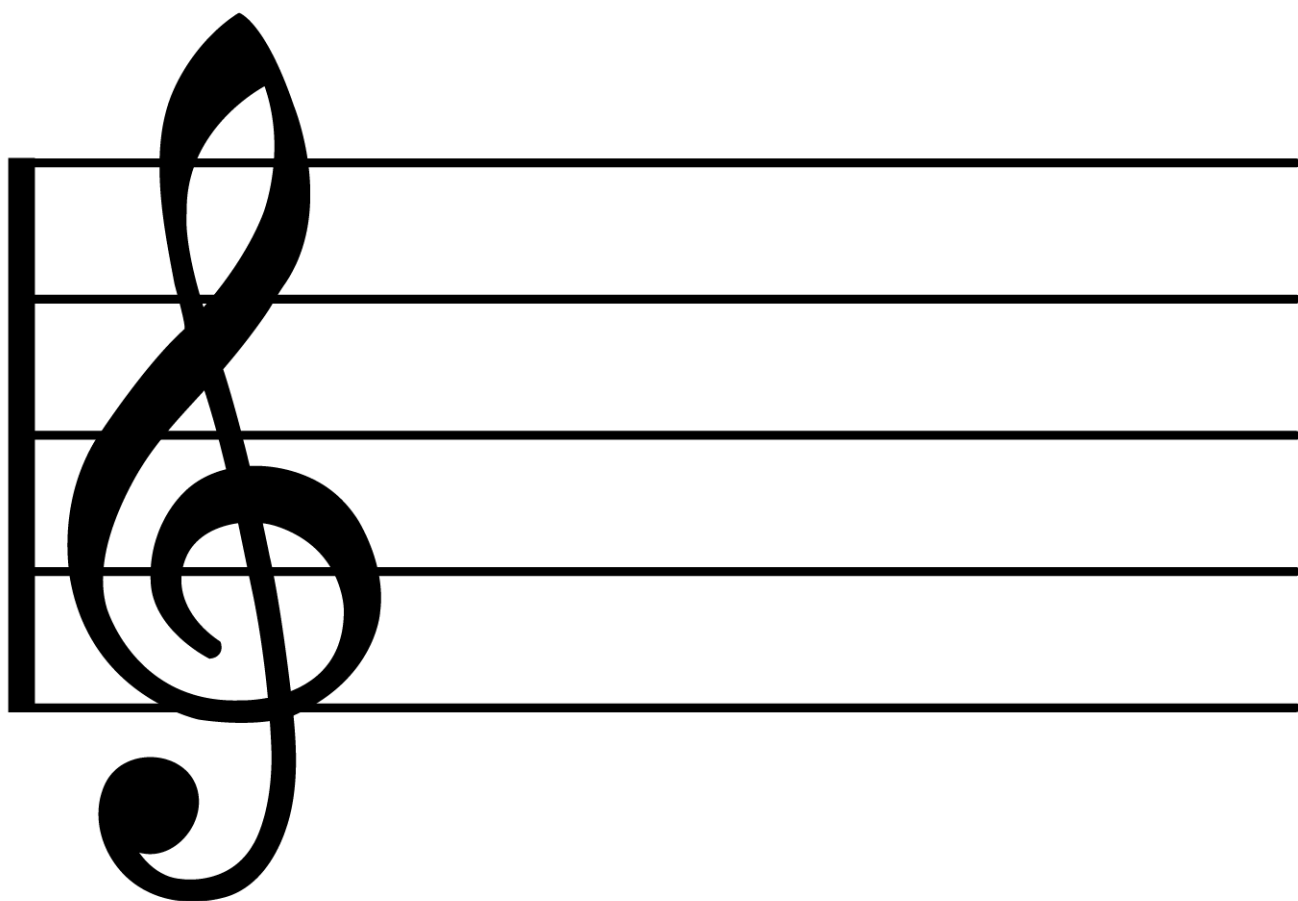

## ASSEMBLY

To assemble this game:

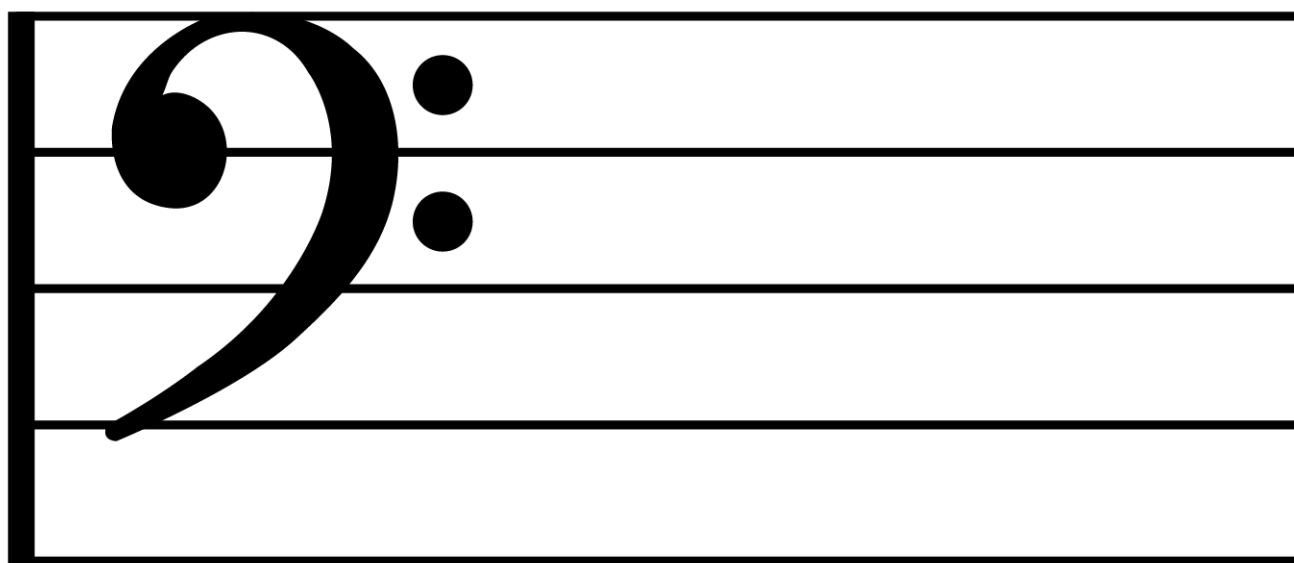

- Print out the game boards (pages 3-4). Trim along the dotted lines and laminate if desired. Print an extra set of these if you will have more than 4 players.
- Print out the sharp/flat tokens (page 5). Trim along the dotted lines (or cut around the shapes more closely) and laminate if desired. Print an extra set of these if you will have more than 4 players.
- Print out the game cards (pages 6-13), cut apart along the dotted lines and laminate if desired.

## LEARNING OBJECTIVES

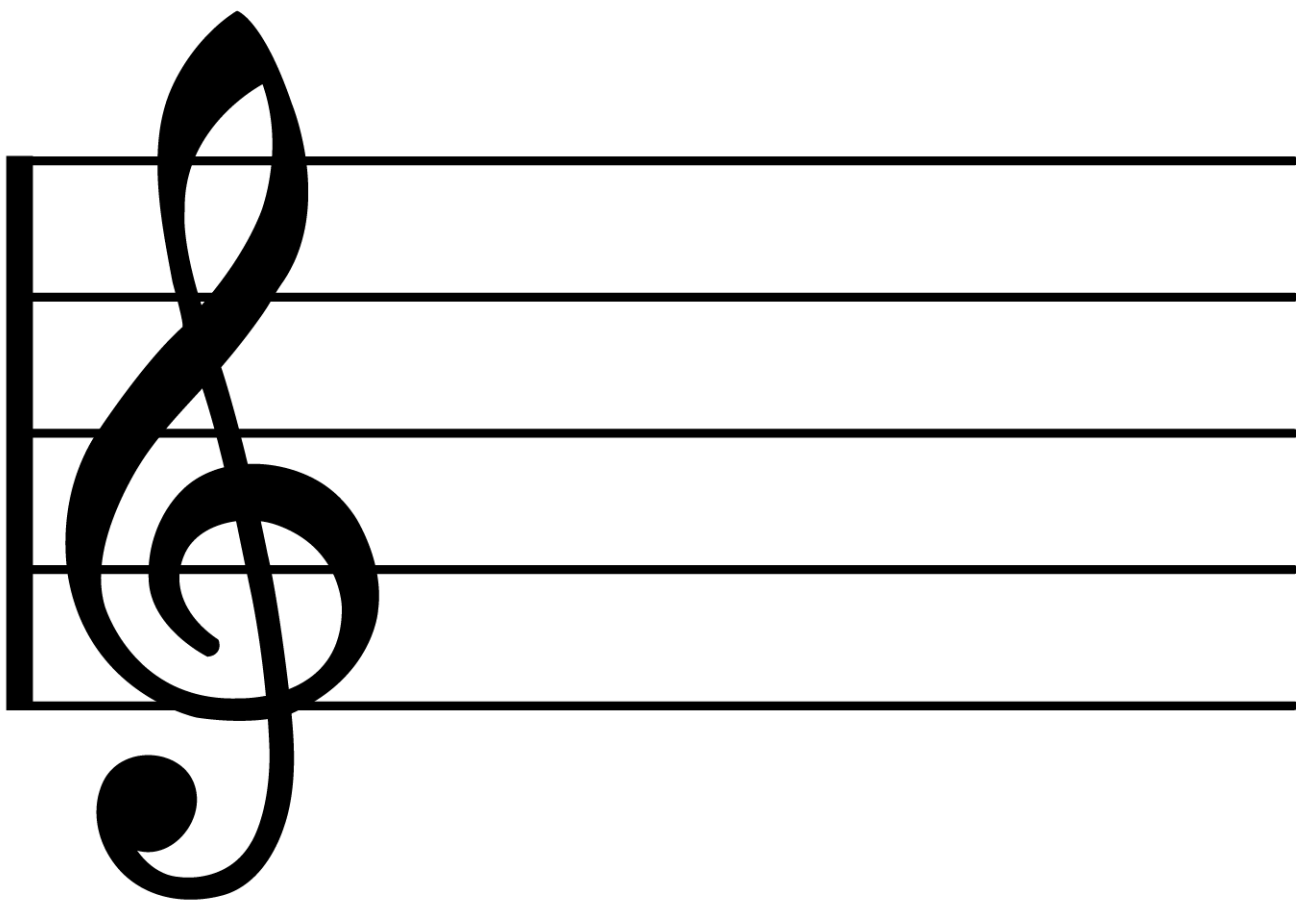

*Key Collector* is a great way for students to get proficient with all things key signatures, including not just identifying the keys but also the order of sharps/flats and their correct placement on the staff.
